U.S. Department of Agriculture.

A Summary of All the Most Desirable Novelties,

As well as the best among older tested varieties of

Trees, Shrubs, Evergreens, Rhododendrons,
Hardy Herbaceous Perennials and Fruits,

Grown and offered by the

SHADY HILL NURSERY CO.,

44 Broad Street, Corner of Milk Street, Boston, Mass.

We grow as Large and Varied a Stock as any American Nursery. Nurseries located at Bedford and Bridgewater, Mass., where we have nearly three hundred acres under cultivation.

 **Our General Catalogue of 166 pages,**
a valuable handbook, sent on application.

Concord electric cars run direct from Arlington Heights to the Bedford Nursery, connecting with Arlington cars from Park Street Subway, Boston.

If You Plant this Spring,

this summary of the best in **Trees, Shrubs, etc.**, will prove of value. Our large general catalogue will be mailed to you if you desire it, and it will please us to have you send for it.

Our stock of **Trees, Shrubs, Roses, Evergreens, Herbaceous Plants, Vines, Rhododendrons, Azaleas, Fruit Trees**, and **Small Fruits** was never larger or in finer condition, and we are prepared to offer the lowest prices for any list of trees or plants required, and hope to hear from you this season.

There are few novelties this season of real merit. The best things are those which have been well tested and are not new. As we grow many trees, shrubs, etc., in large blocks, and can often give customers the benefit of our immense surplus of certain varieties, buyers will find it a great advantage to send to us for an estimate upon any list required before placing orders. We can unquestionably save you a liberal percentage on any order.

Commonwealth of Massachusetts. State Board of Agriculture.

OFFICIAL CERTIFICATE NO. 19.

To Whom it May Concern:

Boston, Sept. 29, 1902.

This is to Certify, that I have this twenty-ninth day of September, 1902, completed the inspection of the nursery stock of The Shady Hill Nursery Company, grown at Bedford and Bridgewater, State of Massachusetts, and find it to be apparently free from the San Jose Scale, and other injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1st, 1903.

(Signed) H. T. FERNALD, Inspector.

THE HERBACEOUS GARDEN.

The above represents a charming garden border of Hardy Perennials. We make a feature of designing old-fashioned gardens and will offer plans and suggestions for the same to any of our correspondents.

Novelties in Trees.

Bechtel's Flowering Crab. (*Pyrus Angustifolia.*)

Of all dwarf flowering trees this is pre-eminently beautiful, and, were we confined to one tree, this would be our choice. It blossoms freely when but 2 or 3 feet high, a habit not common to most of the *Pyrus* family, and the flowers are produced after the full development of the leaves.

The individual flowers are very large, vivid pink in color, with intermingling of white, and are intensely fragrant. For a single specimen of low, compact growth there is nothing to excel it. Strong trees, 75 cents.

The Paragon Chestnut.

Our cut on following page shows the immense nuts of this remarkable variety, which is not only a beautiful ornamental tree, but one of profit. The nuts are produced on young trees when but 7 feet high, and they are double the size of the ordinary American chestnut. The tree is hardy and vigorous and the fruit of the best quality. On account of its dwarf and ornamental habit it is well adapted to planting in small grounds. \$1.00.

Syringa Japonica. (Japan Tree Lilac.)

This beautiful tree is found growing only in one small neighborhood in the most northern island of Japan. It makes a straight, stout, well-branched tree, in shape like a young ash tree, with leaves so large and handsome that it would be in demand as a grand lawn tree for its foliage alone; but when it puts forth in mid-summer, when other lilacs have long been gone, its

PARAGON CHESTNUT AND BURR. (See page 4.)

immense clusters of white blossoms, standing stiffly up on the outer and top shoots of the tree, sometimes measuring 16 by 24 inches in size, it is then, without a doubt, the most showy of all our ornamental trees. The

common lilacs mildew the last half of the summer, but this almost anomalous new species is always clean and glossy, and seems to be perfectly at home in our climate.

The first ever grown commercially were grown in Shady Hill Nurseries, in 1885, and have been sent since then all over the world. 3-4 ft., 50 cents; 5-7 ft., 75 cents.

A Few New Trees of Value are :

Betula Alba Aurea.

A yellow-leaved birch, fine for contrasts with other birches. \$1.00.

Acanthopanax Ricinifolium.

A new Aralia-like tree with immense leaves like the castor-oil bean plant. Hardy and sub-tropical in effect. \$1.00.

Populus Trichocarpa.

A fine new variety of the balsam poplar, with long oval leaves, silvery beneath, and strong in growth. 75 cents.

Ulmus Umbraculifera.

This has a distinct globular growth, becoming finer with age and most picturesque. \$1.00.

Crataegus Carrieri.

One of the finest of the thorns. The foliage is deep, glossy green; the flowers large and white in color. The tree is loaded with bright scarlet fruit the size of a cherry. Most effective and valuable. 75 cents.

Salisburia.

(Maiden-hair Tree, or Gingko.)

About as handsome a small tree as can be cultivated. It is from Japan, and grows into columnar form to about 40 feet. The foliage is formed like the Adiantum fern, thick and glossy. It is largely used abroad for street planting, and as an individual specimen is always handsome. Very desirable on small grounds. 75 cents to \$1.50.

Juglans Sieboldii.

An entirely hardy form of Japan walnut, closely resembling the English walnut, with fruit freely produced in clusters. The foliage is handsome, and the tree makes a picturesque specimen. 50 cents.

Liriodendron Tulipifera Variegata. (Variegated Tulip Tree.)

The variegation of this fine tree is most distinct, each leaf having a brilliant golden margin. The general growth and habit of the tree is stately and symmetrical. The leaves do not burn and fade, as so often with other variegated trees. \$1.50 each.

Fagus Sylvatica Purpurea Rosea Marginata.

A very brilliant rose, margined-leaved variety of the purple beech. The colors are vivid, and the tree is most effective when in full leaf. It does best in partially shady positions. \$1.50.

Leading Shade and Ornamental Trees.

The following list comprises the most desirable.

New Shrubs.

The Dwarf-Flowering Philadelphus. (Avalanche.)

The old-fashioned tall-growing syringa, so called, is one of the best of shrubs, but in its place we have the low-growing form with weeping branches, so well shown in the accompanying cut. It is quite a fountain of flowers. We regard it of greater value than almost any other recently introduced shrub. The flowers are pure white and fragrant, and nothing could be more graceful or effective.

It is yet scarce and the stock limited. 75 cents.

Philadelphus Candelabre.

Another very dwarf form, producing large and graceful blossoms which entirely cover the branches. A charming variety. 50 cents.

Philadelphus Lemoinei Erectus.

Forming an erect bush; the branches are entirely covered with little flowers of the purest white and very fragrant. 50 cents.

Philadelphus Lemoinei. ("Sheaf of Snow.")

Enormous flowers of the purest white, sweet-scented; the branches are arched and drooped by the weight and quantity of flowers. 50 cents.

THE DWARF-FLOWERING PHILADELPHUS. (P. Avalanche.)

Philadelphus Lemoinei. ("Mont Blanc.") large corymbs of creamy white flowers. 50 cents.

Attaining 5 ft. high; erect branches entirely covered with large, fragrant flowers. 50 cents.

Sambucus Nigra Flore Roseaplena.

Very vigorous shrub, with double-rose flowers; awarded a silver medal at the Antwerp Exhibition. 60 cents.

Deutzia Parviflora.

An elegant new shrub, from China. Strong, compact habit, and in June covered with

DEUTZIA LEMOINEI.

Viburnum Dilatatum.

This is considered one of the finest of the group. The foliage is dark green and the shrub dense in habit. It is covered in the fall with masses of brilliant orange-red berries. 75 cents.

Weigelia Eva Rathke.

One of the best of the weigelias, the plant having a vigorous habit and bearing freely well-shaped, large, crimson-red flowers. 50 cents.

Deutzia Lemoinei. (See cut.)

This hardy deutzia is one of the most important among new introductions. The flowers are nearly two-thirds longer than the well-known *D. gracilis*. The large, open flowers are borne in pyramidal heads, are pure white in color, and cover the plant densely. This deutzia has attracted attention wherever shown. 25 cents.

Ceanothus Gloire de Plantieres.

A blue-flowering shrub is a rarity. This is about the only one of the family of *Ceanothus* which can be called hardy, and we can especially recommend it for sections south of Boston. We doubt its hardiness very far north of Boston. The lavender-blue flowers are borne in large terminal clusters, which are graceful and feathery and highly ornamental. 30 cents.

Sambucus Tenuifolia.

A new, hardy variety, with foliage so deeply cut that it resembles some of the Japan maples. It forms a shrub of elegant aspect, and we think it will prove of great value. 75 cents.

Deutzia Gracilis Rosea.

A splendid rosy form of the well-known *D. gracilis*. Of strong, erect, branching habit; very free flowering, and in every way valuable for out-of-door growth or forcing. 25 cents.

Deutzia Gracilis Venusta.

A handsome dwarf variety, with long pyramidal panicles of pure white flowers, the individual flowers resembling an azalea in miniature. 25 cents.

HARDY SHRUBS.

These we grow in enormous quantities, few, if any, nurseries equaling our stock. Of the popular Japan *Berberis Thunbergia*, the best hedge plant ever introduced, we can offer over fifty thousand plants, and all other stock in proportionate quantity. *Viburnums*, *hydrangeas*, Japan quince, privet, *weigelias*, *deutzias*, lilacs, *spireas*, and all other varieties can be supplied by the hundred or thousand, at prices which hardly admit of competition. We can quote by the hundred, for strong shrubs, prices ranging from \$12.00 to \$20.00 per hundred, according to variety.

Rhododendrons and Evergreen Plants.

Our list of these is made up of only the absolutely hardy varieties which have been tested in New England winters. To grow these only is the secret of success. Special lists will be sent on request, with full cultural instructions.

Best named varieties (see large catalogue for list of varieties) — (entirely hardy); about 18–24 ins. high, good bushy plants, well set with buds. Usually sold at \$1.50 each. \$11.00 per dozen; \$80.00 per hundred; \$1.00 each.

Best named varieties (entirely hardy); 2–2½ ft., good plants. \$15.00 per dozen; \$105.00 per hundred; \$1.50 each.

R. Maximum.

This, our native rhododendron, is the hardiest of the family. It is also a vigorous grower, and it comes into bloom long after the hybrid varieties. It is easily transplanted, and is perhaps the most valuable of the broad-leaved evergreen plants. It produces great masses of pinkish white flowers in late June and early July. We can supply extra fine plants, very

bushy, for immediate effect, from 50 cents to \$1.00 each; 24–30 ins., extra bushy, \$50.00 per hundred.

R. Catawbiense.

A fine native with large trusses of beautiful pinkish white flowers, and absolutely hardy. Strong plants, 75 cents each; \$8.00 per dozen; \$60.00 per hundred. 12–18 ins., \$35.00 per hundred.

Kalmia Latifolia.

Our beautiful mountain laurel. Extra fine plants, 2 ft., bushy. \$1.00 each; \$9.00 per dozen.

Andromeda Floribunda.

One of the most exquisite of evergreen shrubs. Hardy. \$1.00 each; \$10.00 per dozen.

Hardy Azaleas.

Without exception these are the most showy of flowering shrubs. The *Ghent* and *Mollis* forms are most brilliant, with innumerable shades of yellow, orange, red, scarlet, soft pinks, and white. See large catalogue for names and varieties.

Azalea Mollis Sinensis.

A new hybrid class, quite distinct, and a valuable improvement, the flowers being larger than *Azalea mollis* and finer in color. They cannot be recommended too highly. \$1.00 each.

Alma Tadema. Soft, creamy rose.

Charles Darwin. Orange-red.

Dr. Reitenbach. Salmon.

Hortulanus. Golden yellow.

Madame A. Koster. Apple blossom.

Rosy. Soft pink.

Azalea Occidentalis.

A splendid hardy form with creamy white flowers, which are *highly fragrant*. A distinct and valuable variety. \$1.00.

Ghent Azaleas.

Strong plants, named kinds, \$1.00 each. \$10.00 per dozen; \$70.00 per hundred.

Mollis, or Japan Azaleas.

Strong plants, named kinds, 75 cents each; \$8.00 per dozen; \$60.00 per hundred.

Seedlings of these fine, strong plants, unnamed, \$2.75 per dozen; \$20.00 per hundred.

Shrubs in Standard Form.

As individual specimens, shrubs in standard or tree form are often sought for, and in formal gardening or upon the lawn are most effective, the standard strain displaying the broad, spreading head of foliage and blossom in striking contrast with the surrounding vegetation.

Althaea.

Finest double varieties as follows: *Amaranthus*, Bicolor, Comte des Flandres, Carnea pleno, Duchesse de Brabant, *Elegantissima*, *Ranunculæflora*, Violet Clair, and Buist's variegated; two-year heads, 3-4 ft. stems, 75 cents.

Forsythia.

Fortunii, 3-4 ft. stems, 50 cents.

Hydrangea.

Paniculata grandiflora, 2 ft. stems, very strong heads, ready for immediate blooming, 75 cents.

Privet.

California, 3-4 ft. stems, 75 cents.

Viburnum.

Plicatum, 75 cents.

Wistaria.

Sinensis, 3-4 ft. stems, \$1.00.

JAPAN SNOWBALL (*Viburnum Plicatum*).
Grown in Tree Shape.

Japanese Maples.

These low-growing, shrub-like trees are general favorites, on account of their dense, compact, and withal graceful growth and their brilliant foliage, which retains its color during most of the summer. *Acer palmatum aureum* has intense yellow foliage and is reliably hardy. This with *Atropurpureum* and its form with dissected foliage are the hardiest of the many varieties catalogued. We have found all the other varieties liable to be winter-killed in New England.

Acer Polymorphum Sanguineum
(Blood-leaved Japan Maple), 12-18 ins.
75 cents each; \$7.50 per dozen.

Acer Polymorphum Sanguineum
(Blood-leaved Japan Maple), 18-24 ins.
\$1.00 each; \$10.00 per dozen.

Acer Polymorphum Sanguineum
(Blood-leaved Japan Maple), 2-2½ ft.
\$1.50 each; \$15.00 per dozen.

Acer Dissectum Atropurpureum
(Purple Cut-leaved Japan Maple), 18-24 ins. \$1.50.

Acer Dissectum (Green Cut-leaved Japan Maple), 2-2½ ft. \$1.50 each; \$20.00 per dozen.

Acer Japonicum Aureum (Golden Japan Maple), 18-24 ins. \$1.50 each; \$20.00 per dozen.

HARDY ROSES.

We grow and sell nearly thirty thousand of these popular plants each year. We offer only strong, two-year-old bushes, which, with proper planting and care, will blossom this year.

See our large catalogue for general list of new and old varieties and cultural directions.

Hybrid Perpetuals.

Including all of the finest and best-known varieties. Extra strong two-year plants, \$3.00 per dozen; \$20.00 per hundred.

Tea Roses.

Including the best and choicest varieties. See large catalogue for list of varieties. \$2.50 per dozen; \$15.00 per hundred.

Polyantha Roses.

The finest and hardiest of bedders in variety. \$3.00 per dozen; \$18.00 per hundred.

Moss Roses in variety. \$3.00 per dozen; \$18.00 per hundred.

Rosa Rugosa and Alba. \$3.00 per dozen; \$18.00 per hundred.

Lord Penzance Hybrid Sweetbrier Roses.

These lovely hybrid forms have already become very popular. The foliage has all the fragrance of the sweetbrier, while the single

flowers are brilliant in various shades of crimson, rose, copper, white, écreu, etc. Strong plants, 30 cents each; \$3.00 per dozen.

Amy Robsart. Lovely deep rose.

Anne of Geierstein. Dark crimson.

Brenda. Peach blossom.

Flora McIvor. Pure white and blush.

Lady Penzance. Beautiful soft tint of copper.

Lord Penzance. Soft shade of fawn.

Lucy Ashton. Pretty white blooms with pink edges.

Meg Merrilies. Gorgeous crimson.

Rose Bradwardine. Clear rose.

Crimson Rambler Rose.

Each year confirms the great value of this hardy, brilliant climber. Vigorous in habit, its long growths loaded with clusters of vivid crimson flowers are unsurpassed in effect. It is one rose among a thousand for good, all-around qualities. Strong plants, 25 cents each; \$2.50 per dozen; extra strong, 40 cents each.

Yellow Rambler Rose.

Similar in habit to Crimson Rambler, with bright yellow flowers in large trusses. The flowers are highly scented. A very valuable new rose. 25 and 40 cents.

Among other new single roses the following are most desirable:

Pink and White Rambler, 25 cents.

Rosa Setigera, 25 cents.

Paul's Carmine Pillar, 50 cents. No picture can well show the beauty of this wonderfully brilliant single rose.

True garden lovers would not be without this variety for tenfold its price if they could properly appreciate its value as a garden rose. It is far more effective in color than Crimson Rambler, and much more refined in every way. The plant is a very strong grower.

Rosa Wichuraiana and Hybrids.

(R. Wichuraiana.)

This most distinct and hardy rose has been found to be one of the most useful roses, from its being essentially unique in its manner of growth and in its general appearance. Its habit of growth is one of its most remarkable features, as the shoots are prostrate in habit, and extend from 10 to 15 feet in a single season, covering the ground densely. The leaves are dark green and lustrous. The effect of this foliage, forming a close mat over the ground, is greatly enhanced by the flowers, which appear about the middle of July, and are irregularly borne during the remainder of the season. These are pure white, nearly 2 inches across, and are very fragrant. 20 cents each; \$2.00 per dozen; \$15.00 per hundred.

Wichuraiana Hybrids.

Manda's Triumph.

Of free growth, with fine foliage, and clusters of from twelve to eighteen perfectly formed double white flowers, nearly 2 inches across, beautifully imbricated; a valuable sort. It is also very sweet scented.

Universal Favorite.

A free grower, producing long, branching shoots, with bright, shiny foliage in abundance, and soft, light pink double flowers, 2 inches in diameter, strongly perfumed.

South Orange Perfection.

This is a gem, with free growth close to the ground and multitudes of the most perfectly formed double white flowers, soft blush pink at the tips, changing to white.

Pink Roamer.

A hybrid which shows the sweetbrier characteristics in bloom, while the growth, which is very rampant, partakes more of the Wichuraiana. The single flowers, which are produced in close heads, are nearly 2 inches in diameter, bright, rich pink, with almost a white center, which lightens up the orange-

red stamens, producing an effect which, combined with the fragrance, makes it one of the most valuable roses in cultivation.

30 cents each; \$3.00 per dozen.

Evergreen Gem.

Not only evergreen, but growing during mild weather in winter. Stems long, branching, rich bronze color, covering the ground closely. Foliage fine rich bronze color, closely matted. Flowers produced singly on stems, yellow, buff in bud, opening to almost white, 2 or 3 inches in diameter, perfectly double, with delightful sweetbrier fragrance. 30 cents.

Jersey Beauty.

Extremely vigorous grower; foliage glossy and of thick, leathery substance. Flowers large, single, 3 inches in diameter, opening pale yellow with cluster of bright yellow stamens, very fragrant, and produced in greatest profusion, covering the plant entirely, and having the appearance of a yellow Cherokee rose. The most striking variety of the set. 30 cents.

Gardenia.

Strong grower, with large green foliage; flowers produced singly on stems 6 inches to 1 foot long. When in bud hardly distinguish-

able from Perle; bright yellow, and, when open, cream color, and 3 to 3½ inches in diameter, incurving toward evening to perfect imitation of a gardenia as to shape and color; hence its name. Flowers are delightfully fragrant and produced freely. A grand rose for any purpose. 30 cents; per dozen, \$3.00.

New Climbing Moss Rose. (Cumberland Belle.)

A fine climbing sport from the moss rose Adelaide. It is a true moss rose, bright silvery rose in color, and attains a height of 10 to 15 feet in a season. A very valuable and beautiful climber, especially as it is hardy and vigorous. 40 cents each; \$4.00 per dozen.

New Rambler Rose "Psyche."

This rose resembles in growth and habit the famous Crimson Rambler, and its flowers, produced in immense quantity, are white, tinted with salmon rose and pink, with bright yellow at the base of the petals. It is invaluable to every rose lover. Price, 35 cents.

New Rose, "Sweetheart."

The flowers are very double, and about 2½ inches in diameter, white, with reverse of petals pink, making a perfect symphony of pink and white. The growth of the plant is from 6 to 9 feet each season, the habit prostrate.

For covering banks and rocks or other situations this rose is unique. Sweetly scented. 75 cents each.

New Rose, "Debutante."

This makes shoots 8 to 12 feet, with trailing habit. Flowers produced in clusters, color

soft pink, deliciously scented. The leaves are dark and glossy, almost evergreen. Perfectly hardy in any situation. It produces flowers in September until frost. 75 cents each.

SINGLE EVERGREEN ROSE, JERSEY BEAUTY.

EVERGREEN ROSE, GARDENIA.

New Ever-Blooming Tea Roses.

Admiral Dewey.

Among the most beautiful of pink roses, a delicate daybreak blush, clear and distinct; a sport from Madame Caroline Testout, more vigorous in habit and a very free bloomer, and is very fragrant. Rose of enormous size. Two-year-old plants, 50 cents each.

Balduin.

One of the most remarkable roses of recent date. As strong growing as the best of the hybrid teas, with large, handsome foliage, flowers of the fullest form and largest size, which are equaled in profusion by no other rose of its size that we have seen. The color is a bright, glowing carmine. Two-year-old plants, 50 cents each.

Clara Barton.

Grand, new, constant blooming rose. The color is a rare and exquisite shade of delicate amber pink, entirely different from any other rose. Flowers medium size, double to the center, delightfully fragrant, and each one is set in with a lovely rosette of leaves, completely encircling the flower and making a bouquet of itself. Two-year-old plants, 50 cents each.

Climbing Paul Neyron.

(Madame Wagram.)

Paul Neyron has always been known as the largest rose extant. In Climbing Paul Neyron we have this large size, coupled with its bright, fresh pink color, that no rose excels.

And it is also a true perpetual bloomer. The freest of all the climbers. Two-year-old plants, 50 cents each.

Coronet.

The sweetest, largest, and freest blooming hybrid tea rose in cultivation. A true, ever-blooming hybrid tea, identical in size with Paul Neyron; it blooms steadily, bearing on good stiff stems, magnificent, large, fragrant flowers that frequently measure from 4 to 6 inches in diameter. In the bud the color is a deep rich carmine. In the open ground, where it is hardy, it does splendidly. Probably the most valuable and satisfactory rose sent out for many years. Two-year-old plants, 50 cents each.

Gruss an Teplitz.

As a bedding rose this is one of the finest and most useful varieties ever sent out. The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant. The freest grower and the most profuse bloomer of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. Two-year-old plants, 50 cents each.

Mrs. Robert Peary.

(Or Climbing Kaiserin.)

Without doubt the grandest of all white climbing roses. Small plants bloom continually the first season. It is as hardy as

any hybrid perpetual or moss rose. It is a strong, rapid grower. The flowers are of splendid substance, extra large, full, deep, and double, and are produced on long, stiff stems. Two-year-old plants, 50 cents each.

Rose Queen Alexandra.

This exceptionally fine rose of the Crimson Rambler type received the Gold Medal of the National Rose Society of England, the highest award known, and besides has been universally commended by all the Horticultural papers of England. It is a beautiful pink shade, most distinct from the Crimson Rambler in every way as to color, but with the same splendid habit of foliage and flower. Pink is a color which is generally sought for, and especially in climbing roses with the habit of the Rambler type. We cannot commend this special variety too highly, and once grown it will be generally sought for and become even more popular than the well-known Crimson Rambler, its congener. Price, 50 cents; \$4.00 per dozen.

Sunrise.

The most gorgeous rose of its class yet introduced. This has taken first honors wherever shown. In bud form it shows the high, brilliant colors seen only in the Austrian copper, scarlet, and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, the inside of the petals golden yellow. The open rose is large, perfectly double, and of grand form. The foliage is glossy and thick. 25 cents each; two-year-old plants, 60 cents each.

Choicest New Hardy Roses.

New Wichuraiana Hybrid Roses.

The following are the most remarkable hybrids yet introduced, and are as rare and distinct as they are valuable for all garden effects. We offer them for the first time, though the stock is limited. All are hardy.

Alberic Barbier.

A very strong grower, leaves dark green, bronzy red in the spring. Flowers are produced in clusters semi-double or double, $2\frac{1}{2}$ to $3\frac{1}{2}$ inches across. Color a creamy white and canary yellow centers. The flowers are fragrant and produced in June.

Rene Andre.

Very vigorous in growth, dark glossy leaves. Flowers, which are produced in clusters, are semi-double, 3 inches in diameter, and buds dark saffron yellow. The open flower is saffron yellow with orange red at base of petals, strongly scented and is a remarkably distinct and valuable rose.

Rosa Wichuraiana Rubra.

The petals of this rose are scarlet red, with orange and white intermingled at base; orange red stamens. A most distinct variety and valuable. Strong in growth and fine glossy foliage.

Auguste Barbier.

Flowers in panicles of ten, half double, 3 inches across. Violet lilac, with whitish

center, buds darker. Very floriferous and showy and vigorous.

Francis Fourcard.

Very dark foliage, flowers half double, of a fine yellow, turning creamy white. Blooms abundantly in June and again in late summer. Extra good foliage.

Paul Transon.

Glossy black green foliage; large panicles of from 20 to 25 flowers, which are large and double and of a rosy color. Tea scented. A vigorous and floriferous variety.

Any of the above, 50 cents each; \$5.00 per dozen.

Rose Dorothy Perkins.

We consider this a very notable new variety, and worth general cultivation. It is a hardy and vigorous climbing rose, bearing clusters of from 30 to 50 flowers like Crimson Rambler. These are a fine and striking shade of shell pink in color, and quite double and deliciously fragrant.

The general habit of this rose, and the character of its flowers, ought to make it as popular as any ever grown. It is absolutely hardy, and is a cross between Rosa Wichuraiana and Mad. G. Luizet 30 cents each; \$3.00 per dozen.

New Hybrid Tea Roses.

The following are some of the very finest new introductions, and combine the freedom of the Tea Rose with the hardiness of the Hybrid Perpetual. These roses are what every rose lover endeavors to find, and for beauty and constancy of bloom none of the large family of roses can equal them. Most of the following roses have created great interest abroad, both in English and Continental garden circles.

Alice Lindsell (Hybrid Tea). A magnificent rose of the highest merit, with very large and perfectly formed flowers, which are creamy white, with pink center. It is robust in growth and very free in flowering, a splendid variety. 75 cents each.

Ards Pillar (Hybrid Tea). This is the perfection of a Pillar Rose. The foliage is large and distinct and very vigorous in growth. The full-cupped blossoms are extremely large and rich velvety crimson in color, absolutely distinct. 75 cents each.

Bob Davison (Hybrid Perpetual). Of vigorous and erect branching habit, every shoot terminating in a flower bud, which is long and dazzling scarlet in color. One of the best of its class. 75 cents.

Edith D'Ombrian. A glorious new Hybrid Tea with immense bloom on erect stem, very large and imbricated in form; color white with pink tinge. 75 cents.

England's Glory. A flesh-colored Hybrid Tea, with immense blooms, freely produced. A splendid, vigorous rose. 75 cents.

Bladud.

A very large globular flower; outside petals silvery white, center pale blush pink. Two-year plants, 75 cents.

Clio.

Large globe-shaped flowers, flesh color in the center with rich pink; vigorous and handsome foliage. One of the finest new roses. 50 cents.

Helen Keller.

Of most perfect form and highly fragrant. The large, perfect flowers are brilliant rosy cerise in color. A very free bloomer and most distinct. 50 cents.

Ards Rover.

A splendid addition to the climbing and pillar roses. Most vigorous in habit with handsome foliage, with extra large flowers of vivid crimson, shaded maroon color. A beautiful climbing variety. 50 cents.

Royal Scarlet.

This forms a vigorous bush, admirably suited for bedding. The single flowers are a most vivid scarlet and leaves reddish brown in color. 75 cents.

Mavourneen.

Large, full flowers, perfect shape. Color delicate silvery flesh white, shaded rose. A most lovely flower. 50 cents.

Rev. Alan Cheales.

Flowers extremely large, pure lake in color, with reflex silvery white petals. Most vigorous and free in habit. Two-year plants, 50 cents.

Tom Wood.

This is especially valuable, flowering freely from early summer until late in autumn. Color cherry red, petals of immense substance, and flowers large and perfectly formed. Habit vigorous and branching. 50 cents.

Killarney.

A charming rose of robust growth and free habit, flowering through the season. The blooms are large and buds long and pointed. Color flesh, shaded white, with pale pink suffusion. This variety has attracted considerable attention. Strong plants, 75 cents.

Purity.

A hybrid Bourbon rose, valuable as a garden rose and one for cut blooms. It makes a grand pillar rose. The flowers are pure white with a faintly flushed center. It is both a free and early bloomer. 75 cents.

Other fine new roses described in our large catalogue are: Marchioness of Downshire, beautiful satin pink; Marchioness of Londonderry, with magnificent ivory white flowers 7 inches across; Mrs. R. G. Sharman Crawford, immense rosy pink flowers of unique form.

New Rose Soleil d'Or.

A valuable hybrid, which is a cross between Persian Yellow and the hybrid perpetual A. Ducher. It has strong, ample foliage, very handsome and entirely hardy. On account of its remarkably distinct and beautiful blooms, we consider it the most valuable rose introduced in recent years. These are large and full, varying in color from gold and orange to reddish gold shaded with nasturtium red. Strong plants, 75 cents each.

Helene.

The New Rambler. A seedling from Crimson Rambler, originated by a famous German rosarian. Flowers larger than those of Crimson Rambler, nearly double, and borne in clusters of twenty to fifty. Color soft violet rose, yellowish white at base of petals. Anthers pure yellow and numerous. Habit fully as strong as Crimson Rambler, but more graceful. Hardy. Strong plants, 25 cents.

Rosa Lucida Alba.

All are familiar with our beautiful native Single Pink Rose, which borders New England roadsides. This is a pure white form of compact habit, and in every way one of the finest single white roses grown. It is in great demand, but is very scarce as yet. Good plants, 50 cents each.

Hardy Climbers.

Chief among these is the beautiful

Clematis Paniculata.

This late-flowering vine has no equal, covering bare spaces rapidly, and in every position proving desirable and ornamental. Having a large stock, we offer strong plants at 25 cents each; \$2.00 per dozen; or \$15.00 per hundred.

The twelve finest climbers are:

New Hardy Herbaceous Plants.

Hemerocallis Florham.

A decided addition to the herbaceous plant border, and a good companion to the fine Hemerocallis Aurantiaca Major.

The flowers are very large, golden yellow in color, and quite fragrant. It blooms freely in June and July. 50 cents each.

Iris Pumila Hybrida.

These are a cross with Iris Germanica, and about as showy, but very dwarf, and this habit gives them special value. They are most desirable and valuable plants in the hardy garden, and should be generally grown.

Cyanea. Rich purple, with blackish tint.

Eburnea. Pure white.

Florida. Beautiful lemon yellow.

Formosa. Deep violet blue.

20 cents each ; \$2.00 per dozen.

Chrysanthemum Nipponicum.

A fine new Japan variety of this showy and valuable species. It flowers in September and October, on dwarf plants, the blossoms measuring 4 inches across and pure glistening white in color. Excellent for free cutting and quite hardy. 20 cents each ; \$2.00 per dozen.

Physostegia Virginica.

(False Dragon Head.)

One of the most attractive mid-summer perennials, growing into a dense bush, covered with heath-like pink tubular flowers. Showy and reliable as a garden plant. 15 cents each ; \$1.50 per dozen.

The Shasta Daisy.

This very fine plant was raised in California, and is hardy in the East. The flowers are a clear, glistening white, often 4 inches in diameter. They are freely produced through the entire summer, until fall. The plant is a remarkably good and hardy perennial, and we consider it most desirable for cutting purposes as well as for garden decoration. 15 cents each ; \$1.50 per dozen.

Glycerius Foliis Spectabilis.

A most attractive and showy new variegated plant, with long, narrow leaves variegated with golden yellow and white. It is fine for color effect in the garden in contrast with other plants, and is quite hardy. 30 cents each.

Hemerocallis Aurantiaca Major. (See cut.)

This splendid perennial has been tested by us thoroughly, and we find it very hardy. The flowers of this plant measure, when expanded, fully 6 to 8 inches across.

HEMEROCALLIS AURANTIACA MAJOR.

They are trumpet shaped, and the ordinary description can hardly do justice to their beauty. The main color is a brilliant orange-yellow, with a deeper band of color at the base of the flower.

We can safely recommend it to all plant lovers, and especially to those who are seeking good things for the hardy garden. 50 cents.

Anemone Queen Charlotte.

Last season we catalogued this new plant, but did not fully appreciate its value then. Last summer we found that it bloomed much earlier than the old varieties, that the flowers were not spoiled by early frosts, an evil quite common to the older varieties. It is also much hardier, and does not die out by winter-killing, while the flowers are beyond comparison with the type. They are fully 4 inches across, and of the most delightful shade of La France pink, lasting a long time when cut, as they are of great substance. 20 cents; \$2.00 per dozen.

Campanula Persicifolia Moerheimi.

This peach-leaved Campanula is of German origin, and is the finest double white bell-flower grown. It is exceedingly rare as yet. The flowers are produced freely through the summer, and resemble a double white rose, so perfectly are they formed. They are from $2\frac{1}{2}$ to 3 inches in diameter. It is another deserving subject for the hardy perennial garden. 50 cents.

Heuchera Sanguinea Alba.

A white-flowered variety of the very popular *H. sanguinea*. The spikes are pure white and about 18 inches long. It promises to be a popular plant when better known. 25 cents.

Helenium Grandicephalum Striatum.

A most showy and desirable perennial plant. The plant grows 3 to 4 feet high, with flowers $1\frac{1}{2}$ inches across, in branching heads of an intense orange, striped and blotched with crimson. It presents an unique effect in bloom. 20 cents.

Spiraea (Astilbe) Chinensis.

Of recent introduction from China, entirely distinct, and a grand addition to our list of hardy border plants. It is a strong, robust grower, forming a bold clump of large, handsome foliage.

GIANT MONTBRETIA "GERMANIA."

The flower stems are erect, about 3 feet high, and support large triangular plumes of feathery white flowers, tinted with pink. 35 cents each; \$3.50 per dozen.

Spiraea Aruncus Kneiffi.

A new variety, superior to all existing kinds. It is of bold, yet graceful habit, attaining a height of 3 to 4 feet, with finely divided, fern-like foliage and a mass of pure white flowers, which are borne in graceful, feathery sprays. A valuable addition to hardy border plants and a most desirable summer cut flower. 50 cents each.

Hardy Aster Grandiflorus.

A splendid form of the popular late-blooming asters, and the finest of all of them. The flowers, about 2 inches across, are of a beautiful violet blue, most effective in autumn, when such flowers are scarce. It is one of the latest to flower, remaining until frost. 25 cents each; \$2.50 per dozen.

Actea Japonica. Japan Baneberry.)

A very beautiful variety, blossoming into October, and bearing close spikes of pure white flowers 20 to 30 inches high, which last a long time when cut. An extra good perennial, of great value. 50 cents each; \$5.00 per dozen.

Giant Montbretia "Germania."

(See cut, page 19.)

The very finest of all this most brilliant summer flowering variety of bulbous plants. It grows 3½ feet high, densely branched with graceful spikes bearing widely expanded flowers 3 inches across, the largest of its class. The color is a glowing scarlet shading to brilliant or-

ange, with blood-red throat and reverse of petals the same color. Nothing can exceed the garden effect of this plant in late summer, when such flowers are invaluable. It is a plant which ought to be well covered each winter with mulching of leaves and straw litter. 25 cents each; \$2.50 per doz.

New Hardy Giant Primrose. (See cut.) (*Primula Veris Superba.*)

A hybrid primrose, having somewhat the growth of a polyanthus, combined with the yellow color and fragrance of the English primrose.

In size of flower it is fully three times as large as any hardy primrose known. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same family known to us. 25 cents each; \$2.50 per dozen.

Clematis Douglasii.

An erect variety from the West, with deep blue flowers in early spring, similar in habit to *C. crissa*, but better in every way. Followed with plummy, decorative seed vessels, and most showy in every aspect. 25 cents each.

Incarvillea Delavayi.

A hardy perennial with gloxinia-shaped flowers, rose-colored and exceptionally ornamental. It lasts long in bloom, and altogether has few superiors as a hardy decorative plant. The flower spikes are from 18 to 20 inches high. 50 cents each.

Hardy Chrysanthemums.

These old fashioned hardy plants are eagerly sought for by garden lovers, but

we are able to offer a large number of new varieties which are of the greatest value. The list below embraces every variety of color. These plants, though quite hardy, with a slight protection go through the winter more safely. For late fall effects, when all flowers are cut off, nothing can equal them. 10 cents each; \$1.00 per dozen.

Climax. Rosy pink, free and early.

Eagle d'Or. Fine yellow.

Flora. Beautiful deep golden yellow.

Fred Peele. Deep crimson, tipped gold.

Goldfinch. Golden bronze.

NEW HARDY GIANT PRIMROSE.

Golden Fleece. Clear yellow.

Globe d'Or. Golden Yellow.

Julia Lagravere. Very fine crimson.

L'Ami Couderchet. Fine sulphur white.

Model of Perfection. A fine pure white.

Mrs. Vincent. Dark crimson.

Nellie Rainsford. Buff.

President. Rosy carmine.

Rosinante. Blush Rose, very dwarf.

Sœur Melaine. Fine pure white.

Strathneath. Rosy pink, distinct.

Trojan. Bright maroon, yellow center, early and free.

Veuve Clicquot. Bright red, edged yellow.

White Jardin des Plantes. Extra early white.

Yellow Jardin des Plantes.

Tritoma Pfitzerii. (See cut.)

We consider this one of the most showy and valuable of all hardy plants. It is a great improvement upon the old varieties. It produces blooms late in the season much more freely than the type, and these measure 12 inches long. Their color is a rich orange scarlet, most intense and glowing. This is a plant whose qualities cannot be exaggerated. 25 cents each; \$2.50 per dozen.

Paeonia festiva-maxima.

An old variety, but undoubtedly the finest white Pæony in cultivation. The flowers are as large as any grown, perfect in form, and of dazzling whiteness, beautifully flaked with scarlet in the center.

We offer the true variety at 75 cents each, strong plants.

TRITOMA PFITZERII.

Gerbera Jamesonii, or Barberton Daisy.

This splendid plant from the Transvaal is really a scarlet Marguerite, the daisy-like flowers measuring about 4 inches across, and varying from bright orange red and scarlet to deep vermilion. There is no plant like it. It sends up from a strong crown continuously through the summer stout stems bearing its brilliant flowers, but the plant must be taken under cover in the winter, when it will

go on blooming freely. It is a plant of certain and constant blooming habit. We are enabled to offer it for the first time in quantity. Price, 50 cents each; \$6.00 per dozen.

NEW HARDY PINKS.

Albino.

One of the finest white hardy pinks yet grown, and with flowers as large as a winter carnation, which are freely produced. Fragrant, and fine for cutting.

Ernest Ladhams.

Exquisite pink shade and deep carmine center. Quite a unique variety and most distinct. Hardy, and free in blooming.

Homer.

Rich rosy red, with dark center. On account of its color and quality most invaluable.

Souv de Sale.

Very similar in shape and size to Her Majesty pink, but of a soft, beautiful pink color. It is a worthy companion to the latter variety, and is entirely hardy. The flowers are of largest size and very double. 15 cents each; \$1.50 per dozen.

Dianthus Plumarius "Snowball."

This magnificent pink originated in Germany, and we offer it for the first time. It is the largest pure white variety yet originated or in cultivation. The stems are very strong, and the flowers do not split or become ragged. It is an exquisite addition to this popular family of hardy plants, and rapidly increases. Price, 25 cents.

Geranium Sanguineum Album.

A pure white form of the well-known hardy geranium. It is a most desirable garden plant, with deeply cut orna-

Trollius "Orange Globe."

The globe flowers are among the most satisfactory of the perennial family. They are constantly in flower through the

the very large globular flower being a deep orange color. 35 cents each; \$3.50 per dozen.

Arabis Alpina fl. pl.

An extra double form of the rock cress. One of the best early flowering perennials; low growth, suitable either for the rockery or the border, and covered with fine racemes of pure white double flowers.

We recommend it strongly as a most desirable hardy plant. 25 cents each; \$2.50 per dozen.

Yucca Filamentosa Bicolor. (See cut.)

A finely variegated form of the common yucca, or Adam's Needle. The evergreen leaves have a broad stripe of white to the tips, and the flowers, as usual, are produced in tall spikes, with creamy white waxen blooms. A most useful and decorative plant, of value to every garden. 50c. each; \$5.00 per dozen.

YUCCA FILAMENTOSA BICOLOR.

mental foliage and broad pure white blossoms. 25 cents each; \$2.50 per dozen.

summer, and are most refined in appearance. This is one of the finest forms,

Japan Fern Balls.

These attractive Japanese plant oddities are especially valuable for house culture. They are simply balls of the native Japan Fern bound into balls, which, when thoroughly wet and hung up, throw out innumerable finely cut and very ornamental fronds, making a ball of beautiful and vivid green foliage. 50 cents each.

New and Rare Lilies.

Lilium Henryi.

The orange-yellow Speciosum. The ordinary Speciosum lily from Japan is one of the most reliable of all lilies. This splendid yellow form is as good grower as the type, and has received abroad many prizes for its value and beauty. Too much cannot be said in praise of it. It is very free in flowering, as many as 20 flowers being borne on one spike late in the season, these flowers being of a deep orange-yellow. It is quite hardy, and grows well in any good, well-drained garden loam. \$1.50 each.

Lilium Tigrinum Fortunei Giganteum.

A wonderful advance upon the famous old tiger lily, the six-foot spikes producing about 50 flowers each. 50 cents each.

Lilium Rubellum.

When first introduced from Japan, no hardy plant created more interest than this beautiful variety, which has proved quite hardy and vigorous. In the richness of the coloring it has no rival in the widely famed genus to which it belongs. \$1.50.

Herbaceous Plants BY THE Hundred Thousand.

The demand for many varieties of these exceeds the supply. We, however, grow the largest stock in America, devoting some ten

acres to their cultivation. Our large catalogue gives a complete list of all the best plants for cultivation. We offer strong plants as low as \$10.00 per hundred for many good varieties, ranging upwards to \$12.00 and \$15.00 per hundred. We make plans for herbaceous gardens and can offer low rates in quantity.

The following are twenty-four of the best herbaceous plants. We offer the entire collection in strong plants for \$2.50.

Asclepias tuberosa,	Hibiscus moscheutos,
Achillea ptarmica,	Lilium longiflorum,
Aster Novæ anglæ,	Iris Kæmpferi,
Boltonia latisquæmæ,	Pardonanthus sinensis,
Campanula persicæ- folia,	Phlox, tall,
Coreopsis lanceolata,	Pyrethrum uliginosum,
Dianthus barbatus,	Rudbeckia (Golden Glow),
Delphiniums, hybrids,	Spiræa japonica,
Eulalia gracillima,	Spiræa palmata,
Funkia ovata,	Yucca filamentosa,
Gaillardia,	Monarda didyma.
Helenium autumnale,	
Iris germanica,	

Allegheny Fringed Hollyhocks.

The advent of this new strain of hollyhock is warmly welcomed, the flowers in many ways being superior to the old forms. The flowers are from 5 to 6 inches in diameter, the petals are delicately fringed, and the colors extremely varied, from pink and white to deep red. Robust in growth, spikes 6 to 7 feet high.

Superb Double Hollyhocks.

We grow the finest strain of this popular flower, and offer strong plants in white, pink,

salmon, yellow, maroon, sulphur, and bright red. 20 cents each; \$2.00 per dozen; \$15.00 per hundred.

Single Hollyhocks.

These old-fashioned flowers are so much in demand that we offer strong plants in mixed colors. 15 cents each; \$1.50 per dozen; \$10.00 per hundred.

New Clematis.

New Hardy Hybrid Clematis Coccinea.

An entirely new and distinct type of clematis, the result of crosses between *C. Coccinea* and *Star of India*, combining all the good points of their parents in hardiness, vigorous, robust growth, and freedom of bloom, which, together with their novel coloring and shape, make them valuable additions to the list of hardy climbers.

Countess of Onslow. Bright violet purple, with a broad band of scarlet through the center of each petal, of open, bell-shape form, with four to six petals to each flower, which are thick in substance.

Duchess of Albany. A beautiful bright pink, deeper down the center, softening to lilac pink round the margin; campanulate in shape.

Duchess of York. A delicate and pleasing shade of pale pink, with a deeper tinge in the center of each petal, of which there are from four to six to each bloom; campanulate form.

Any of above, 75 cents.

Clematis Madame Andre.

This magnificent carmine red clematis resembles Jackmanni in freedom of bloom and strong growth. The flowers are equally large and similar in shape. A valuable and deserving novelty. 50 cents.

We grow all of the leading and finest of the named large-flowered clematis, like Jackmanni, Jackmanni Superba, Henryi, etc., names of which can be found in our large catalogue. Extra three-year plants, 40 cents each.

Herbaceous Paeonies.

The demand for these gorgeous garden plants is so large that we constantly add to our collection, and can offer the most complete list in the country. In addition to the list in our large catalogue, we have many other fine varieties, like *Festiva maxima*, the finest white grown, and others. There can be no comparison between the fine named sorts and the common cheaper varieties sold. Best named varieties, 35 cents each; \$4.00 per dozen.

Single Paeonies.

These are much sought after, and are very beautiful in flower, many of the blooms being of immense size and gorgeous in effect. Many prefer them to the double varieties. 50 cents each.

See list of names in large catalogue.

New Japan Tree Paeonies.

We import from Japan these plants, which in their own country occupy a *premier* position. The size and colors of these paeonies are surprising, many of the flowers measuring 12 inches across.

SUMMER FLOWERING BULBS.

Show and Fancy Dahlias.

New Varieties.

Arion. Rich crimson; large and full. Price, 30 cents.

Le Collose. The most remarkable of the new varieties. In size it is without doubt the largest ever grown; in color it exhibits such an unusual shade of brilliant orange-red as to attract immediate attention. It is a very free flowering variety, has long erect stems, blooms early and continues to the very last. Price, 75 cents.

White Queen. A better white dahlia than was ever before offered to the public. It is somewhat larger than the "John Walker," of perfect form, an early and continuous bloomer and never shows a center. Every dahlia expert to whom we have shown this variety has unhesitatingly pronounced it the best they have ever seen. Price, 30 cents.

General Collection.

Arabella. Pale primrose, tipped and shaded delicate rose.

They are hardy, vigorous plants. We have them in many colors, like pink, scarlet, crimson, white, rose, and purple. 75 cents each; \$8.00 per dozen.

A. D. Livoni. Pure pink; the best pink dahlia.

Alice Emily. Buff yellow of perfect form, a grand exhibition flower. Price 15 cents.

Buffalo Bill. Buff striped vermilion. One of the finest fancies. Price, 25 cents.

Chorister. Fawn, striped primrose and rose, a constant variety. Price, 35 cents.

Duchess of Albany. Pale orange, striped rich crimson; the largest and most perfect fancy dahlia. Price, 35 cents.

Dr. J. P. Kirtland. Dark velvety crimson, very large.

Duke of Edinburgh. Yellow, an excellent variety. Price, 20 cents.

Dandy. (English) Orange, striped crimson, a magnificent flower. Price, 50 cents.

Emily Edwards. Blush, tipped lavender. Price, 25 cents.

Fascination. White, suffused lavender, large, perfect flowers, on long stems. Price, 20 cents.

Frederick Smith. Lilac, striped purple. Price, 35 cents.

Frank Smith. Maroon, tipped white, frequently comes solid maroon. Price, 25 cents.

Geo. Smith. Crimson, an elegant, free blooming variety.

Golden Age. Sulphur yellow.

Grand Duke Alexis. A pure glistening white, tinted soft lilac. Price, 25 cents.

CACTUS DAHLIAS.

New Varieties.

Henry Eckford. Buff yellow, striped scarlet. Price, 20 cents.

Henry Glasscock. Buff, striped and spotted crimson. Price, 35 cents.

John Thorpe. Light, rose-pink. Price, 25 cents.

Keystone. Lilac, striped crimson.

Lottie Eckford. White, striped purple. Price, 20 cents.

Lady Herbert. Cream white, tipped purple. Price, 15 cents.

Lucy Fawcett. Light yellow, striped rosy lilac. Price, 15 cents.

Mrs. W. Slack. Blush white, edged purple. Price, 15 cents.

Matthew Campbell. Buff, striped crimson. Price, 20 cents.

Madam Tules. Yellow, tipped crimson.

Miss Ruth. Pale pink, shading to white.

Mrs. Kendal. White, heavily tipped rosy purple. Price, 25 cents.

Mrs. C. Noyes. Light fawn, quite a new tint, with very attractive shading. Price, 35 cents.

Norma. Bright orange-buff, large and full. Price, 25 cents.

Prince Henry. Lilac, striped purple. Price, 15 cents.

Prof. Fawcett. Lilac, striped chocolate. Price, 25 cents.

Sunset. Yellow, flaked and striped scarlet, a magnificent flower. Price, 20 cents.

Stanley. Yellow, finely striped with scarlet. Price, 35 cents.

Statesman. Purple, shaded crimson. Price, 20 cents.

White Swan. Pearly white, best for cutting.

Wm. Wyeth. A brilliant crimson scarlet. Price, 20 cents.

Wm. Fawcett. Light yellow, tipped crimson.

Edelcactus. One of the most beautiful crimson cactus dahlias ever grown, of perfect form and exquisite velvety texture, borne on long graceful stems. Price, 50 cents.

Beatrice. Soft rose, paling towards the points of the petals. The best pink cactus. Price, 35 cents.

Night. An intensely dark maroon, of the finest cactus shape; the plant is sturdy, throws the blooms well up, and though, not remarkably free, each flower is above the average size. Price, 50 cents.

Arachne. A most remarkable flower; the center of each petal is pure white, edged along its entire length with a broad band of brightest crimson. Price, 35 cents.

Brittanina. A delicate salmon pink, very large, and built on a most æsthetic model. Price, 35 cents.

General Collection.

Capstan. Soft red, tinted apricot at base of flower, perfect shape and a remarkably free bloomer. Price, 35 cents.

Capt. Dreyfus. Dark velvety maroon, petals very slender and pointed. Price, 35 cents.

Chas. Woodbridge. Bright crimson, shaded purple. Price, 35 cents.

Daniel Wilson. Red, fine massive flowers of true cactus shape. Price, 35 cents.

Ernest Cheales. Bright scarlet.

Ernest Glasse. Purple magenta, perfect cactus form.

Earl of Pembroke. A deep velvety plum color, brightening at tips. Price, 20 cents.

Frank Woodgate. Scarlet, yellow at base. Large. Price, 35 cents.

Flossie. Pale coral pink, tinted at center with primrose; a pretty combination of colors. Price, 15 cents.

Gloriosa. Scarlet; large, finely formed flowers of a glowing shade.

Island Queen. Light mauve; very distinct and charming. Price, 15 cents.

John Welsh. A rich, glowing crimson, long twisted petals. Price, 25 cents.

John Roach. Soft yellow, edged sulphur yellow.

Keynes White. Pure ivory white, undoubtedly the best. Price, 25 cents.

Laverstock Beauty. Soft vermilion-red, a splendid variety. Price, 35 cents.

Loreley. Rose, ivory white at center. Price, 25 cents.

Mrs. Barnes. Pale primrose, shaded pink

Mrs. Bennett. Light crimson, an early bloomer.

Matchless. Rich velvety maroon, perfect shape, good stems. Price, 25 cents.

Miss Finch. Rich carmine rose, shaded crimson; free and distinct. Price, 35 cents.

Mrs. A. Peart. Cream-white, very light and graceful. Price, 15 cents.

Mrs. A. Nightingale. Deep yellow, heavily tipped bright red.

Mrs. Dickson. Soft rose, clear yellow at base of petals. Price, 35 cents.

Prince of Orange. Bright orange salmon, shaded apricot.

Royal George. Carmine pink. Price, 20 cents.

Radiance. Vivid orange scarlet, yellow at base of petals, which are long and finely pointed. Price, 35 cents.

Standard Bearer. Fiery scarlet; very free and fine. Price, 35 cents.

Starfish. An absolutely pure scarlet, perfectly curled and pointed, indispensable for exhibition. Price, 50 cents.

Sir Rogers. Terra-cotta red, splendid shape.

Tillie. A beautiful delicate pink, a trifle under size, but very æsthetic in shape. Price, 35 cents.

DECORATIVE DAHLIAS.

New Varieties.

Alpha. Deep crimson; an exceptionally fine decorative variety. Stems long and wiry, standing well above the foliage. 35 cents.

Himmliche. A bright glistening purple-lavender; flowers very large, stems long, and an exceedingly free bloomer. 35 cents.

Perle de la Tete-d'Or. One of the most remarkable and most beautiful of all the decorative class. Flowers a pure white with frequently a slight tinge of purple; very large and of exquisite form, with petals very prettily notched. Its chief value, however, lies in its adaptability for cutting and decorative purposes. The stems are erect and very long, while the blooms will keep for days longer than other varieties. 35 cents.

General Collection.

Bennett Goldney. A glistening terra-cotta.

Delicata. Light salmon, shading to pink.

Lockenkopf. Light salmon. New. Price, 25 cents.

Lyndhurst. A brilliant scarlet.

Nympha. Shrimp pink; an old variety, but always a favorite.

Oban. Salmon, overlaid crimson pink, an odd but attractive combination.

Prince of Orange. Bright orange salmon, shaded apricot.

Wm. Agnew. Red; very large.

POMPON DAHLIAS.

New Varieties.

Rosebud. Pure white ground, edge rosy pink, very neat, free flowering, fine stems. 20 cents each.

Purity. A perfectly pure white; very free, on long stems. 15 cents each.

General Collection.

Any of the following 12 cents each.
\$1.25 per dozen.

Aillets Imperial. Delicate creamy white, tipped purple.

Alewine. A very delicate shade of pink, tinted lilac.

Brunette. Crimson, sporting white.

Catherine. Bright yellow.

Fernleaf Beauty. Cream-white, each petal margined crimson. Fine fern-like foliage.

Little Jennie. Primrose yellow.

Minnie. Buff yellow, tipped pink.

Rosalie. Yellow, edged crimson.

Sunbeam. Brilliant crimson.

Snowclad. Pure white.

Zoar. Yellow, edged salmon and pink.

Golden Gem. Pure yellow.

Single Dahlias.

10 cents each, \$1.00 per dozen.

Gertrude. Dark scarlet; single cactus, extra form.

Miss Roberts. Pure yellow; large.

Nance. Crimson-pink.

Isaac Pitman. Purple-maroon; fine form.

Thomas Becket. Crimson-lake with bright yellow ring.

Rosebank Cardinal. Scarlet; fine form.

Jack Shepard. Yellow with scarlet stripe.

Sanningdale Yellow. Pure yellow; very large.

Queen Mary. White with tint of yellow at base of petals.

Kenilworth. Dark crimson.

Excelsior. Creamy white, tipped crimson.

Duke of York. Crimson-scarlet; with serrated petals.

Holyoke. Bronze yellow; very large.

Ruth. Dark, velvety maroon.

Flossie Fisher. Purple, creamy white at base of petals.

GROFF'S GLADIOLUS.

An entirely new strain, of marvelous coloring and quality.

Groff's Pan-American Collection.

This mixture embraces unusual colors, never before offered, such as blue, lilac, and heliotrope. No one who values the Gladiolus should fail to grow this new "break." In color and form they are unique. Per dozen, \$1.50.

Groff's New Hybrids.

In this collection one may find every color of Mr. Groff's creations. They are truly marvelous in color. Per dozen, 50 cents; \$3.00 per hundred.

Tuberous Begonias.

For bedding and pot culture nothing can excel these begonias. The flowers measure from 3 to 5 inches across, on strong, upright stems, and the colors run from pure white and delicate pink, orange, and yellow to the most intense shades of scarlet and crimson. Their culture is simple. They prefer moisture in summer and a partly shaded location. Given good soil and partial shade and moisture, they amply repay any effort made to grow them. Full cultural directions will be sent on request.

SINGLE SORTS.

Scarlet.	Pink.
Orange.	White.
Crimson.	Yellow.

10 cents each; \$1.00 per dozen; \$6.00 per hundred.

SINGLE, ALL COLORS MIXED.

8 cents each; 75 cents per dozen; \$5.00 per hundred.

DOUBLE SORTS.

Scarlet.	White.
Pink.	Yellow.

20 cents each; \$2.00 per dozen.

DOUBLE, ALL COLORS MIXED.

15 cents each; \$1.50 per dozen.

NEW FRENCH CANNAS.

The following list embraces the very best out of the hundreds of new hybrids. Growers find it most bewildering to choose the best, but these we offer may be depended upon for the most brilliant and satisfactory results, the various points of growth, flowering qualities, and fine blooms being fully considered in making up the list.

Alemania.

This Canna of the Italian type bears extraordinary flowers, over 6½ inches across. Upper petals salmon, broadly bordered with golden yellow, the lower petals darker salmon and marked with yellow. Massive green leaves, 6 feet in height.

Alphonse Bouvier.

An older variety, but still at the head of tall crimson varieties. A strong grower, with bright green foliage. Very floriferous; grows 6 to 7 feet high.

Alsace.

The nearest approach to a white canna yet introduced; flowers of medium size, and on opening are of a pale sulphur-yellow, changing to creamy white; it is a strong, free grower, and very free flowering. 4½ feet.

Egandale.

A most excellent variety, with bronzy foliage and soft, currant-red flowers, which are thrown well above the foliage; the best of its type; attains a height of about 4 feet.

Florence Vaughan.

Undoubtedly one of the finest yellow-spotted varieties yet sent out. In color it is

of a bright, rich, golden yellow, spotted with red; the flowers, which are of the largest size, of great substance, and of perfect form, are borne in large heads and in the greatest profusion; the foliage is massive and of a rich green color.

J. D. Eisele.

Flowers vivid vermilion-scarlet overlaid with orange. A strong, free grower. One of the best of its color.

Queen Charlotte.

A splendid gilt-edged variety, and by many considered the finest of the class. The flowers, which are very large, with broad, rounded petals slightly recurved, are borne in immense heads, well above the foliage, and are most striking in color; a bright orange-scarlet, deeply edged with bright canary yellow. Of dwarf habit.

Souvenir Antoine Crozy.

A magnificent gilt-edged variety. The flowers are very large, with well-rounded petals, which are of the most intense scarlet-crimson, bordered with a broad band of rich golden yellow; trusses very large and erect, carrying an immense number of large flowers. Very free bloomer.

Sam Trelease.

The special merit of this variety is that the flowers open out flat, making an almost circular flower. It is the nearest approach to pure scarlet among cannas. No other variety compares with it in freedom of flowering.

Austria.

Remarkable for its sturdy, rank growth, forming massive clumps 6 to 7 feet high, covered from the ground up with large, deep green Musa-like foliage. Plants set out early in the season will, before midsummer, form clumps with 20 to 30 strong stems, each stem surmounted by tall spikes of golden yellow flowers, standing upright like immense lilies. It blooms continuously.

Madame Crozy.

The flowers of this well-known and popular variety are of a bright crimson-scarlet, bordered with golden yellow. The plant is of vigorous growth, yet dwarf in habit. Foliage bright green and massive. The large branching stems are closely set with bloom, each stem being really a bouquet in itself.

President McKinley.

Color brilliant crimson, with bright scarlet shading. Truss large, compact, of good shape, and held well above the foliage, and are produced freely and evenly. Plant is dwarf; foliage deep green, with marked chocolate margin. It is one of the earliest bloomers, coming into flower when 14 to 18 inches high, and blooming continuously thereafter.

Any of the above, 15 cents; \$1.50 per dozen.

New Dark-Leaved Canna.

(Black Beauty.)

This magnificent foliaged canna attracted great attention at the Buffalo Exposition, and nothing can be finer for foliage effect than this variety.

The flowers are small, but the heavy foliage, of a glistening, bronzy purple color shaded with black, gives it exceptional value for subtropical effect in the garden or grounds. The

leaves are also peculiarly crimped, with wavy margins.

25 cents each; \$2.50 per dozen.

Gladiolus.

There are no more attractive and valuable summer flowering bulbs than the gladioli. We can offer a splendid variety of these at low prices. The mixtures are especially desirable for general planting and can be well recommended. All are selected first-class bulbs, and give the best results, as the colors are carefully blended.

Scarlet and crimson shades, 25 cents per dozen; \$1.50 per hundred.

White and light shades, 35 cents per dozen; \$2.50 per hundred.

Yellow shades, 50 cents per dozen; \$3.50 per hundred.

Pink shades, 35 cents per dozen; \$2.50 per hundred.

Extra mixed, all shades, 30 cents per dozen; \$2.00 per hundred.

Lemoine's Hybrids. (Nanceanus.)

These brilliant spotted flowers are very broad and showy, and quite distinct from any others. They are vigorous and effective, being twice the size of ordinary gladioli. 8 cents each; 50 cents per dozen.

Gloxinias.

We can offer the best type of this beautiful flower in mixed varieties, embracing all colors. 10 cents each; \$1.00 per dozen.

Caladium Esculentum.

(Elephant's Ear.)

One of the most effective plants in cultivation for the flower border or for planting out upon the lawn. It bears immense leaves 3 to

4 feet long by 2½ feet wide. First size bulbs, 15 cents each; \$1.50 per dozen. Second size bulbs, 10 cents each; \$1.00 per dozen.

Milla Biflora.

(Mexican "Star of Bethlehem.")

One of the most desirable bulbs. The flowers are nearly 2½ inches in diameter, of a pure waxy white color. Bulbs, 5 cents each; 50 cents per dozen.

Montbretias.

The Montbretias are one of the most brilliant of summer-flowering bulbs, and will never be dispensed with when once grown. They are hardy and rapidly multiply.

Crocsmiæflora. Deep golden orange; fine.

Etoile de Feu. Bright vermilion, yellow center.

Gerbe d'Or. Splendid golden yellow.

Pottsii grandiflora. Golden orange; outside bright red.

Rayon d'Or. Yellow and brown.

Transcendent. Orange and vermilion; large.

Any of the above, 5 cents each; 25 cents per dozen; \$2.00 per hundred.

Tigridias. (Tiger or Shell Flower.)

These showy summer-flowering bulbs flower freely throughout the summer, and require the same treatment as gladioli.

Conchiflora. Golden yellow, spotted crimson.

Pavonia grandiflora. Bright crimson, center spotted with yellow.

Grandiflora alba. Ivory white, yellow center, spotted with crimson.
5 cents each; 40 cents per dozen.

Tuberoses.

Excelsior Double Pearl. Three for 10 cents; 25 cents per dozen; \$1.50 per hundred.

Zephyranthes.

(Zephyr Flowers, or Fairy Lilies.)

Beautiful dwarf bulbous plants, very ef-

fective for planting out in masses in May.

Alba. Pure white. 5 cents each; 40 cents per dozen; \$3.00 per hundred.

Rosea. Large rose-colored flowers. 5 cents each; 40 cents per dozen; \$3.00 per hundred.

Iris Kaempferii. (Japan Iris.)

We grow this splendid iris by the acre, and can supply in any quantity. We import from

Japan every new variety found; consequently, our collection is complete, both as to old and newer sorts. See list in large catalogue and cultural directions.

Named kinds, per dozen, \$2.50; per hundred, \$18.00.

Fine seedlings of choicest kinds, \$1.25 per dozen; \$8.00 per hundred.

Hardy Ornamental Grasses.

These are invaluable in any position, grouped in the garden with other plants or as single specimens.

The *Arundos* and *Eulalias* add largely to effectiveness in combination with flowering plants.

Arundo Donax (Great Reed). A magnificent variety, growing to a height of 15 feet, and forming dense clumps. 25 cents each.

— **Variegata.** A beautiful variegated form of the above. Foliage creamy white and green; growing 6 to 8 feet high. 25 cents each.

— **Macrophylla Glauca.** A remarkably strong-growing variety, attaining a height of 15 feet, with foliage $3\frac{1}{2}$ to 4 inches wide, much closer jointed than the type; the leaves are of a dark glossy green on the upper surface and of a glaucous color underneath. It forms denser and more majestic-looking plants than *A. Donax*. 50 cents each.

Elymus Glauca (Blue Lyme Grass). A handsome grass, with narrow glaucous silvery foliage; well adapted for planting in the border. 15 cents each; \$1.50 per dozen.

Erianthus Ravennæ. Grows from 9 to 12 feet high, frequently throwing up from 30 to 50 flower spikes. It closely resembles the Pampas Grass. 25 cents each.

Eulalia Gracillima Univittata. Of compact habit, with very narrow foliage; of a bright green color, with a silvery midrib. 25 cents each; \$2.50 per dozen.

— **Japonica Variegata.** A very graceful variety from Japan. Its long, narrow leaves are striped green, white, and often pink or yellow. It throws up flower stalks from 4 to 6 feet in height; very ornamental. 25 cents each; \$2.50 per dozen.

— **Zebrina (Zebra Grass).** The long blades of this variety are marked with broad yellow bands across the leaf. 25 cents each; \$2.50 per dozen.

Festuca Glauca. A pretty, tufted grass, with glaucous foliage. 15 cents each; \$1.50 per dozen.

Gynerium Argenteum (Pampas Grass). One of the most effective. Its silvery plumes are produced on stems 8 to 10 feet high. Well-established plants can remain in the open ground if protected. 25 cents to 50 cents each.

Phalaris Arundinacea Variegata (Variegated Ribbon Grass, or Gardener's Garters). Large, variegated foliage; an excellent grass for bordering large beds. 10 cents each; \$1.00 per dozen; \$6.00 per hundred.

Viola Latifolia (Spike Grass). One of the best of our native grasses, growing from 3 to 4 feet high, with large, flat flower heads in graceful, drooping panicles. 15 cents each; \$1.50 per dozen.

Fruit Trees.

Our large Catalogue gives in detail all of the leading new and old varieties of **Apples, Cherries, Pears, Plums, Peaches, Apricots**, etc., of which we offer the finest quality grown, in first-class, healthy trees. We can supply these in any quantity, singly or by the hundred or thousand. Write for special estimates.

------------------------------------	--------

Fruits

and Small Grapes.

Currants, Blackberries, Raspberries, Gooseberries, Strawberries. We grow these largely, and can make very special prices to buyers.

New Double and Single Lilacs.

We can supply the finest collection of these deservedly popular shrubs in almost every variety worth growing. Our large catalogue contains a full list of the most distinct species and hybrid forms. There are many kinds, the flowers of which are similar, but the following list embraces only those which are notably valuable in habit of growth and flowering qualities: Josikæa, Ludwig Spæth, Marie LeGraye, Chas. X., Frau Dammann, Philemon, Alphonse Lavallæ, Leon Simon, Max Cornu, President Carnot, Mad. Lemoine, Virginite, M. Dombasle. Strong bushes from 50 to 75 cents each.

Wood Ashes for Lawns.

The value of pure ashes for enriching lawns is far beyond stable manure, besides being much more economical. The value of a barrel of ashes applied in the spring is about equal to a cord of manure. By the use of ashes weeds are eliminated, and a rich, lasting verdure secured. Per barrel, 200 pounds, \$2.00.

Summer Bedding Plants.

We would direct attention to our facilities for furnishing tender summer-flowering plants of the highest quality. All of the following plants are sturdy and well grown, and can be depended upon for quick effect in summer. In consideration of the quality, our prices are low.

Landscape Gardening and Design.

HIS is the most important department of our business. We maintain a force of experts, who, from long and varied experience, are competent to develop either large or small estates with economy and in harmony with the best ideas of landscape art.

We undertake such work without unreasonable charges, and can save our clients a large margin of the usual cost.

We ask every owner of new grounds to appreciate the fact that skilled advice in the treatment of his property is as imperative as in the building of the house, especially when it is considered that the ultimate effect of a large proportion of the best residences depends to a large extent upon the proper treatment of the surrounding grounds. It is well to remember that fully fifty per cent. of the cost of the better class of houses is expended with the desire of producing beauty, and that one dollar intelligently spent on the grounds will afford more beauty than ten will on the house.

One has but to note the pleasing and refined aspect of a dwelling with carefully studied plantings of tree and shrub growth, harmoniously grouped and arranged, with paths and roads in graceful outline, and charming vistas and landscape effects fully emphasized, to appreciate how important it is to consider this work in the broadest way and to intrust it to skillful hands and trained judgment. We are prepared to make full plans, locate residences and roads, estimate on grading, remodel old estates, and in all departments of landscape design and engineering to secure efficient and economical results.

In the near neighborhood of Boston we send expert men at any time to advise on planting, etc., without charge.

Shady Hill Nursery Co., 44 Broad Street, Corner of
Milk Street, Boston, Mass.
